

**Heritage Grain & Legume Farmers** – heritage and organic grains for local markets (LM), Farmers Markets (FM), Community Supported Agriculture (CSA), Mail Order (MO), Wholesale (W)

*Please contact farmer for their latest crop offerings; this list may not include all available crops at a given time.*

To qualify for this list farmers are using organic practices and are generally certified organic. At least some of the grains, legumes and seeds that they grow are heritage\* varieties, that predate 1880 in the case of wheat. At least some of the heritage grain crop is sold locally, within the state in the USA or within the Country.

\*Heritage wheat includes landrace varieties and post-1880 modern varieties that are nonproprietary, usually these later varieties are crosses released more than 25 years ago.
